Skincare education that moves with you...

Our unique and innovative Stellar Learning program is custom made for you as a student to study and complete your qualifications where you live and work, rather than relocate to pursue your dreams. Most importantly you can start your studies whenever you like! Stellar Learning is designed so you can study at your own pace on a "pay-as-you-go" program, as opposed to an upfront cost, so you can better manage your study time and your budget. Stellar Learning allows you to graduate with any of our qualifications, from our entry level Certificate III, which will help you get work in a salon straight away, through to our Certificate IV and Diploma of Beauty Therapy qualifications. And you have up to 2½ years to complete your Diploma qualification.

Payment of a non-refundable deposit of \$1,000 is required to start your journey, along with the fees for first Module of study. This deposit is taken off your last Module(s) of study. Modules of study are purchased in the order outlined below, and have been designed to compliment your practical training.

The theory components are done via correspondence with our dedicated Stellar Learning educators and participants can choose where they wish to do their four (4) day Practical Intensive Workshops – in Sydney, Melbourne or Brisbane. These workshops are held throughout the program at set times during the year.

Additionally as a Stellar Learner you will have access to the Ella Baché salon network which can help you with work experience and job placement.

*Please note: Ella Baché salons are independently owned and operated and not all of them can support Stellar Learners with work experience and job placement.*
